It's YOUR powerful voice!

What I am fighting for

- **Fairer Firearms Laws** – Protect law-abiding firearms owners from unfair restrictions and stop treating responsible gun owners as criminals.
- **Protect Public Land Access** – Oppose the creation of new National Parks and fight for improved access to public land for all recreational users.
- **Fix Regional Roads** – Deliver significantly increased funding to repair and maintain Victoria's deteriorating rural and regional roads.
- **Better Regional Healthcare** – Dramatically improve access to healthcare and medical services for regional and rural communities.
- **Better Forest and Game Reserve Management** – Increase funding for the proper management, maintenance and protection of State Game Reserves and Forests.
- **Improve Regional Rail** – Invest in more reliable, frequent and accessible passenger rail services for regional Victoria.
- **Stop Water Mismanagement** – Demand responsible water management that protects regional communities, farmers and the environment, including a fairer restructure of the Murray Basin Water Plan.
- **Invest in Regional Schools** – Provide greater funding for regional schools to ensure our children receive the education and opportunities they deserve.
- **Defend and Support Victorian Farmers** – Stand up for farmers' right to operate their businesses, manage their land and protect their livelihoods without unreasonable restrictions, forced developments or infrastructure, extremist animal activism, illegal trespassing, harassment or intimidation.
